Kidvive Fun & Learn Activity School is an online learning platform designed for children aged 2 to 6 years. Our school offers a carefully structured curriculum across four levels: ECD (2-3 years), Play (3-4 years), Nursery (4-5 years), and KG (5-6 years), focusing on the developmental needs of young learners. Each level is designed to provide children with a strong foundation in key academic areas while making learning engaging and enjoyable. In the ECD level, we emphasize parental involvement, guiding parents on how to teach their children essential skills in motor development, communication, and early cognitive abilities. The goal is to create a strong foundation at home that supports children's early learning.

At the Play level, children begin learning alphabets, words, tracing, and rhymes while also exploring basic math and science concepts. The curriculum is designed to keep children engaged and curious, offering subjects like Bangla, English, Math, Storybooks, and Coloring, all taught in a fun and interactive way.

The Nursery level builds on these skills by introducing sentence formation, expanding vocabulary, and diving deeper into intermediate science concepts. Children are also encouraged to develop their critical thinking and problem-solving abilities through subjects like Bangla, English, Math, and Storybooks.

In the KG level, children refine their sentence-making, continue learning math and science, and work on writing skills with fill-in-the-blank rhymes. This level focuses on preparing children for formal schooling, giving them the necessary tools to succeed in a school environment.

At Kidvive Fun & Learn Activity School, we combine interactive learning and engaging activities with a focus on parental involvement, ensuring that children receive a well-rounded education. Our goal is to make learning enjoyable while providing children with the skills they need for future academic success.

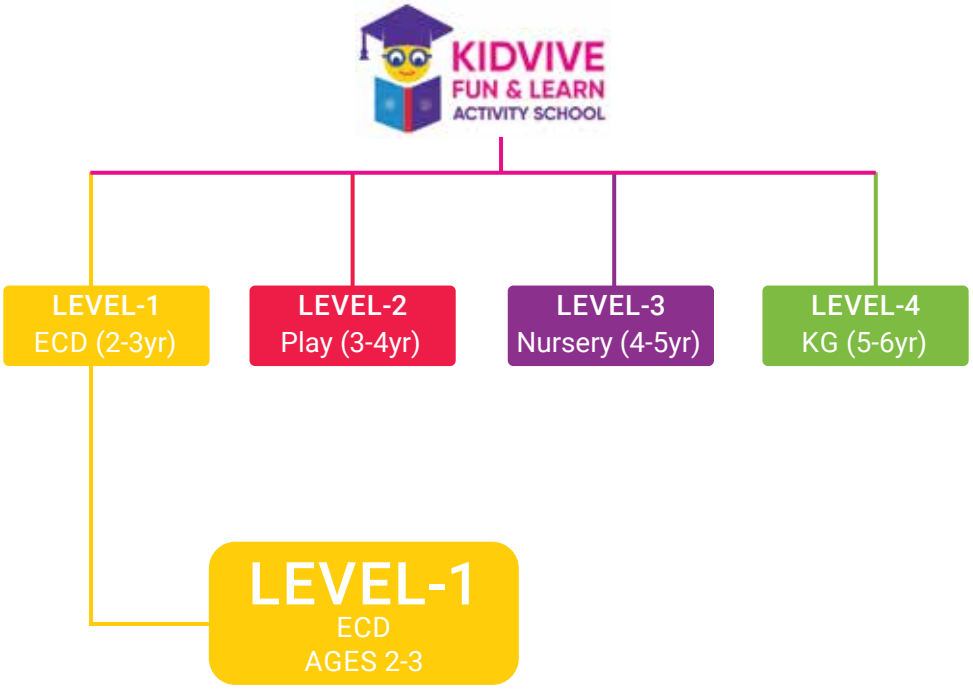
Fun, Learn & Grow

KIDVIVE
FUN & LEARN
ACTIVITY SCHOOL



Our ECD program is designed to foster cognitive, social, emotional, and physical growth in children aged 0-3 years through discovery, exploration, and skill-building. The package includes 10 engaging activity books (coloring, rhymes, stories, flashcards, and more) and 19 interactive study tools (art supplies, building blocks, magnetic letters, math tools, and more) to nurture creativity, language skills, and a scientific mindset.The ECD level is designed to teach young children while primarily focusing on guiding parents. Parents receive step-by-step instructions on how to effectively educate their 2-3-year-old children at home.

About Our Program

ECD (Early Childhood Development) Ages 2-3

The ECD level is designed to introduce early learning while primarily focusing on guiding parents on how to teach their children effectively. At this stage, children are in their formative years, absorbing information from their surroundings. However, they learn best when parents are actively involved. In this program, parents receive structured guidance on how to engage their 2-3-year-old children in meaningful learning activities. Through simple exercises, interactive play, and daily routines, parents help children develop early cognitive, motor, and communication skills. The teaching process is structured for parents with clear step-by-step instructions on how to start and complete each activity. Children at this level begin learning through sensory experiences, basic vocabulary, colors, and shapes. The goal is to ensure a smooth transition into the next stage of structured learning while helping parents build an effective learning environment at home.

A Guide to Using This Book

- ☞ There are a total of 28 unique drawings in this book.
- ☞ Be sure to use soft-colored sharp pencils to get better results.
- ☞ Be careful of using other tools such as gel pens or markers.We recommend a piece of cardstock or thick paper behind the page you're working on to prevent the ink from bleeding to the page below.
- ☞ Use a color test page to try out different colors to find the best combinations as you expect. Be cautious; colors might vary from your expectations sometimes.
- ☞ Color whichever images you feel like at the moment and skip whichever you want to. You can come back the next day as we advised you to practice daily to get the most out of this experience.
- ☞ Share Your Creativity. Why keep that creativity hidden? Why keep that creativity hidden? We encourage you to share your colored pages with like-minded colorists just like you. We would love to see your art masterpiece
